

**REDWOOD FALLS PUBLIC UTILITIES  
COLD WEATHER RULE – INABILITY TO PAY  
2022-2023 APPLICATION FOR PROTECTION FROM DISCONNECTION**

If you cannot pay your Redwood Falls Public Utility bill and need Cold Weather Protection from your utilities being shutoff, you must fill out this form and return it to the City of Redwood Falls immediately to determine if you qualify. Minnesota Public Utilities Commission - Cold Weather Rule provides that from October 1, 2022, to April 30, 2023, a utility cannot disconnect a residential utility customer if you enter into and make timely payments under a mutually acceptable payment agreement.

responsibilities**

**Effective October 01, 2022**

## Third-Party Notification Request

Redwood Falls Public Utilities offers customers the opportunity to have a third party notified if their electric service is to be disconnected. This program can be especially helpful for the ill, senior citizens, disabled, and those living alone. The third-party could be a friend, relative, church, or community agency. The third party will also receive copies of all disconnect notices mailed to the customer but is NOT responsible for paying the bills. By volunteering, the third party is able to receive and give information about personal circumstances and make payment arrangements with Redwood Falls Public Utilities for the customer.

## Notice of Residential Customer Rights and Responsibilities

Some customers find it hard to pay their utility bills in the winter. The Minnesota State Legislature has passed a law commonly referred to as the "Cold Weather Rule" to protect residential customers from disconnection if they cannot pay their bills in full. This protection lasts from October 1 through April 30. Customers may qualify for this protection if they meet ALL of the following conditions:

1. The customer has completed the Application for Protection Form provided by the utility.
2. The household income is less than 50% of the state median income level. (customers receiving 'any form of public assistance' are deemed to have qualified for inability to pay status)
3. The customer enters into and makes reasonably timely payments on a mutually acceptable payment plan.

This notice is to inform customers of their rights and responsibilities under the Cold Weather Rule. These rights and responsibilities are designed to help you with winter utility bills. **You must act promptly.** If you choose not to assert your rights or choose not to enter into a mutually acceptable payment plan, your electric service may be disconnected.

### Your rights and responsibilities are:

- **The right** to declare an inability to pay your electric bill.
- **The responsibility**, if choosing inability to pay, to complete fully the COLD WEATHER RULE – INABILITY TO PAY APPLICATION FOR PROTECTION form and return to City of Redwood Falls Public Utilities.
- **The right** to negotiate a mutually acceptable payment plan with the City of Redwood Falls Public Utilities, which address existing past due balances and current and future usage during the cold weather period.
- **The responsibility** to make timely payments under the payment plan. Failure to comply with or change the existing payment arrangement may result in the service being disconnected.
- **The right** to appeal to the City Council a determination of income by the utility and the right to appeal if the customer and utility cannot arrive at a mutually acceptable payment plan. Service will not be disconnected during the appeal process.

The Cold Weather Rule does not totally forbid winter shut off. You must contact the utility in advance of the disconnect date to avoid disconnection or a limiting device. **IF YOU RECEIVE A SHUT OFF NOTICE THIS WINTER, YOU MUST ACT PROMPTLY!**

In addition, customers who use life-sustaining electrical medical equipment may qualify for medically necessary protection. For more information, call the Redwood Falls Public Utilities (507) 616-7400.

## ENERGY ASSISTANCE PROGRAM

Southwest Health & Human Services  
Energy Assistance Program  
266 East Bridge Street  
Redwood Falls, MN 56283  
507-637-4041

## ENERGY SAVING TIPS

- Set your thermostat between 66°-68° during the heating season.
- Install a programmable thermostat. Set the temperature back 10° for eight hours every night during the winter months, and lower your heating bills by 10%.
- Replace or clean your furnace filters monthly.
- Check the duct work for dirt streaks, especially seams. These indicate air leaks and they should be sealed.
- Caulk and weather strip any cracks around doors and windows.
- Insulate any ducts or pipes that travel through unheated spaces.
- Remove or cover window air conditioners during the winter.
- Lower the setting of your hot water heater to 120°F
- Open shades during winter days for passive solar heat and close them at night.
