TERMS AND CONDITIONS

1. ELIGIBILITY

Rebates are available to non-residential customers of the Utility. All products must be in use in facilities in the Utility service territory.

2. APPLICATION PERIOD

The program is offered January 1 through December 31 of the respective calendar year. Due to limited funding, this rebate offer can be withdrawn at any time without notice, and is available on a first-come, first-serve basis. All projects must be pre-approved by the Utility to qualify for a rebate.

3. INSPECTION AND VERIFICATION

The Utility reserves the right to inspect the Customer's facility through on-site visitations before and after new equipment installation to verify rebate eligibility.

4. INSTALLATION AND REBATE AMOUNTS

Qualifying energy-efficient commercial food service equipment installed and operational within six (6) months of the date of purchase is eligible for rebate. Additional time may be granted subject to the Utility's pre-approval. In no case will the rebate paid by the Utility exceed the purchase price of the equipment. The maximum rebate amount may be limited.

5. INVOICE AND PAYMENT

When the purchase and installation is completed, the Customer must notify the Utility and submit original invoices specifying the quantity and price of all materials purchased, the date ordered, installation costs, and applicable taxes. Additionally, if the new equipment is not listed on the Qualifying Equipment Tables but meets the efficiency requirements for that equipment, sufficient data must be provided to prove that it qualifies. After satisfactory review of the invoices and on-site verification, a rebate check will be issued to the Customer. Please allow 60 days from the date of on-site inspection for delivery of payment.

6. EQUIPMENT ELIGIBILITY REQUIREMENTS

All equipment must be new. Used or rebuilt equipment is not eligible for an incentive. Eligible high-efficiency commercial food service equipment must meet or exceed the minimum efficiency requirements shown in the Qualifying Equipment Tables.

7. TAX INFORMATION

The Utility will not be responsible for any tax liability imposed as a result of the rebate payment(s). Customers are advised to consult their tax advisors for detail. Customers must submit the appropriate Tax ID or Social Security Number on the application form.

8. DISCLAIMER

The Utility does not guarantee that the implementation of energy-efficient measures or use of the equipment purchased or installed pursuant to this program will result in energy or cost savings. The Utility makes no warranties, expressed or implied, with respect to any equipment purchased or installed including, but not limited to, any warrant of merchantability or fitness for purpose. In no event shall the Utility be liable for any incidental or consequential damages. Customers are solely responsible for the proper disposal of existing equipment. Consult the Minnesota Pollution Control Agency (MPCA) for details at (800) 657-3864.

9. ENDORSEMENT

The Utility does not endorse any particular vendor, manufacturer, product, or system in promoting this rebate program. Listing a vendor or product does not constitute an endorsement, nor does it imply that unlisted vendors or products are deficient or defective in any way.

ENERGY STAR's qualifying product lists only include products that meet or exceed their current performance specifications. Products that qualified under previous specifications are not listed but still qualify for rebates. Documentation must be provided to show that a product is ENERGY STAR qualified if it isn't listed on their current qualifying product lists.

Combination Ovens

CODE 100

Rebate per unit = \$900

Electric Commercial Combination Ovens must be ENERGY STAR® qualified.

See qualifying product list for electric combination ovens on the ENERGY STAR website:
<http://www.energystar.gov/productfinder/product/certified-commercial-ovens/results>

Convection Ovens

CODE 200

Rebate per unit = \$225

Electric Commercial Convection Ovens must be ENERGY STAR® qualified.

See qualifying product list for electric convection ovens on the ENERGY STAR website:
<http://www.energystar.gov/productfinder/product/certified-commercial-ovens/results>

Fryers

Standard Vat Size (Vat Width < 18") - CODE 300

Rebate per Vat = \$150

Electric Commercial Fryers (standard vat) must be ENERGY STAR® qualified.

See qualifying product list for electric fryers on the ENERGY STAR website:
www.energystar.gov/productfinder/product/certified-commercial-fryers/results

Large Vat Size (Vat Width ≥ 18") - CODE 301

Rebate per Vat = \$150

Electric Commercial Fryers (large vat) must be ENERGY STAR® qualified or have a tested heavy load cooking energy efficiency of 80% or greater and an idle energy rate of 1100 W or less utilizing American Society for Testing and Materials (ASTM) Standard F2144 for large vat fryers.

See qualifying product list for large vat electric fryers on the ENERGY STAR website:
www.energystar.gov/productfinder/product/certified-commercial-fryers/results

Ventilation Hood Controllers

Code 1401

Electric Rebate per Exhaust Fan horsepower = \$165

Gas Rebate per 1000 CFM = \$300

The Electric Rebate is available to electric customers and is calculated using the nameplate horsepower of the exhaust fan controlled by the ventilation hood control system. The additional Gas Rebate is available to gas customers of Austin Utilities and Owatonna Public Utilities and is calculated using the CFM of the exhaust fans controlled by the ventilation hood control system.

Commercial kitchen exhaust hood control system must use variable speed controls that automatically control the exhaust fan.

Qualifying Electric Food Service Equipment

1/1/20

Low-Flow Pre-Rinse Spray Valves

CODE 1200

Qualifying Low-Flow Pre-Rinse Spray Valves must have a flow rate of 1.15 gallons per minute or less and a cleanability performance of 26 seconds per plate or less, based on the American Society for Testing and Materials (ASTM) Standard Test Method for Performance of Pre-Rinse Spray Valves. **Low-flow spray valve must replace a standard flow unit. Hot water must be provided by an electric water heater.**
