# 2020 Business Heat Pump Programmable Thermostats Rebate Application

Programmable thermostat must control a heat pump.

Programmable thermostat must replace an existing thermostat to qualify for a rebate (new construction projects are not eligible).

If a Building Automation System is present, it must not be used to control heat pump operation.

Heat Pump			Programmable Thermostat							Rebate
A	B	C	D	E	F	G	H	I	J	K

Restaurant	1,530
Retail - Large Department Store	1,444
Retail - Strip Mall	1,393
Warehouse	1,533

# TERMS AND CONDITIONS

## 1. ELIGIBILITY

Rebates are available to non-residential electric customers of the Utility. All products must be in use in facilities in the Utility service territory.

## 2. APPLICATION PERIOD

The program is offered January 1 through December 31 of the respective calendar year. Due to limited funding, this rebate offer can be withdrawn at any time without notice, and is available on a first-come, first-serve basis. All projects must be pre-approved by the Utility to qualify for a rebate.

## 3. INSPECTION AND VERIFICATION

The Utility reserves the right to inspect the Customer's facility through on-site visitations before and after new equipment installation to verify rebate eligibility.

## 4. INSTALLATION AND REBATE AMOUNTS

Qualifying energy-efficient equipment installed and operational within six (6) months of the date of purchase is eligible for rebate. Additional time may be granted subject to the Utility's pre-approval. In no case will the rebate paid by the Utility exceed 50% of the installed cost of the programmable thermostat.

## 5. INVOICE AND PAYMENT

When the purchase and installation is completed, the Customer must notify the Utility and submit original invoices specifying the quantity and price of all materials purchased, the date ordered, installation costs, and applicable taxes. Proof of installation by a contractor must be included to receive the higher rebate amount shown in the Rebate Schedule. After satisfactory review of the invoices and on-site verification, a rebate check or bill credit will be issued to the Customer. Please allow 60 days from the date of on-site inspection for delivery of payment.

## 6. EQUIPMENT ELIGIBILITY REQUIREMENTS

Incentive is for the installation of programmable thermostats used to control air source and ground source heat pump operation. Eligible programmable thermostats must be new. Programmable thermostat must replace an existing thermostat to qualify for a rebate. New construction installations are not eligible. If a building automation system is present in the building, it must not be used to control the operation of the heat pump controlled by the new programmable thermostat.

## 7. TAX INFORMATION

The Utility will not be responsible for any tax liability imposed as a result of the rebate payment(s). Customers are advised to consult their tax advisors for detail.

## 8. DISCLAIMER

The Utility does not guarantee that the implementation of energy-efficient measures or use of the equipment purchased or installed pursuant to this program will result in energy or cost savings. The Utility makes no warranties, expressed or implied, with respect to any equipment purchased or installed including, but not limited to, any warrant of merchantability or fitness for purpose. In no event shall the Utility be liable for any incidental or consequential damages. Customers are solely responsible for the proper disposal of existing equipment. Consult the Minnesota Pollution Control Agency (MPCA) for details at (800) 657-3864.

## 9. ENDORSEMENT

The Utility does not endorse any particular vendor, manufacturer, product, or system in promoting this rebate program. Listing a vendor or product does not constitute an endorsement, nor does it imply that unlisted vendors or products are deficient or defective in any way.
